

his regular rate of pay. Since the salary in such a situation is intended to compensate the employee at straight time rates for whatever hours are worked in the workweek, the regular rate of the employee will vary from week to week and is determined by dividing the number of hours worked in the workweek into the amount of the salary to obtain the applicable hourly rate for the week. Payment for overtime hours at one-half such rate in addition to the salary satisfies the overtime pay requirement because such hours have already been compensated at the straight time regular rate, under the salary arrangement.

(b) The application of the principles above stated may be illustrated by the case of an employee whose hours of work do not customarily follow a regular schedule but vary from week to week, whose overtime work is never in excess of 50 hours in a workweek, and whose salary of \$250 a week is paid with the understanding that it constitutes his compensation, except for overtime premiums, for whatever hours are worked in the workweek. If during the course of 4 weeks this employee works 40, 44, 50, and 48 hours, his regular hourly rate of pay in each of these weeks is approximately \$6.25, \$5.68, \$5, and \$5.21, respectively. Since the employee has already received straight-time compensation on a salary basis for all hours worked, only additional half-time pay is due. For the first week the employee is entitled to be paid \$250; for the second week \$261.36 (\$250 plus 4 hours at \$2.84, or 40 hours at \$5.68 plus 4 hours at \$8.52); for the third week \$275 (\$250 plus 10 hours at \$2.50, or 40 hours at \$5 plus 10 hours at \$7.50); for the fourth week approximately \$270.88 (\$250 plus 8 hours at \$2.61 or 40 hours at \$5.21 plus 8 hours at \$7.82).

(c) The "fluctuating workweek" method of overtime payment may not be used unless the salary is sufficiently large to assure that no workweek will be worked in which the employee's average hourly earnings from the salary fall below the minimum hourly wage rate applicable under the Act, and unless the employee clearly understands that the salary covers whatever hours the job may demand in a particular workweek and the employer pays the

salary even though the workweek is one in which a full schedule of hours is not worked. Typically, such salaries are paid to employees who do not customarily work a regular schedule of hours and are in amounts agreed on by the parties as adequate straight-time compensation for long workweeks as well as short ones, under the circumstances of the employment as a whole. Where all the legal prerequisites for use of the "fluctuating workweek" method of overtime payment are present, the Act, in requiring that "not less than" the prescribed premium of 50 percent for overtime hours worked be paid, does not prohibit paying more. On the other hand, where all the facts indicate that an employee is being paid for his overtime hours at a rate no greater than that which he receives for nonovertime hours, compliance with the Act cannot be rested on any application of the fluctuating workweek overtime formula.

[33 FR 986, Jan. 26, 1968, as amended at 46 FR 7310, Jan. 23, 1981]

§ 778.115 Employees working at two or more rates.

Where an employee in a single workweek works at two or more different types of work for which different non-overtime rates of pay (of not less than the applicable minimum wage) have been established, his regular rate for that week is the weighted average of such rates. That is, his total earnings (except statutory exclusions) are computed to include his compensation during the workweek from all such rates, and are then divided by the total number of hours worked at all jobs. Certain statutory exceptions permitting alternative methods of computing overtime pay in such cases are discussed in §§ 778.400 and 778.415 through 778.421.

§ 778.116 Payments other than cash.

Where payments are made to employees in the form of goods or facilities which are regarded as part of wages, the reasonable cost to the employer or the fair value of such goods or of furnishing such facilities must be included in the regular rate. (See part 531 of this chapter for a discussion as to the inclusion of goods and facilities in wages and the method of determining
